Tags used

1. Style tag
used to define style information (CSS) for a document.
2. Button
It defines a clickable button. Inside a <button> element you can put text (and tags like <i>, ,
, , etc.).
3. Figcaption
It is used to define a caption for a <figure> element.
4. Imgsrce
It is used to put an image in the webpage
5. Footer
It is an element of the webpage that is always mentioned at the bottom which could contain general details about the website and contact information
6. Div
It is used to create a division or a section in an HTML document.
